Reno Public School Gossip.

The fall term of the Reno public schools will probably close Friday, December 20th. The final examinations for promotions will begin Monday, December 16th. The semi-annual promotions heretofore made about the last of January, will this year be made in December.

This, it is believed, will prove a beneficial change for the schools, as it will do away with the serious interruption to school work entailed by final examinations and promotions in January, just after the holiday vacation.

It will be something of a problem for the school authorities to provide properly for all the pupils who will want to attend school after the holidays. The promotions made will relieve the congestion somewhat in the first grade rooms, but what a crowding there will be higher up!

At the teachers meeting yesterday a communication was received from Miss Anna Martin, offering a University Extension course on Art. The Reno teachers gladly accepted the offer, as they always do when the right kind of a proposition comes before them.

Following are the results of the races at Oakland yesterday, as received over the O.W.'s leased wire and published in the Pony Bulletin:

Kiley Must Stand Trial.

Joe Kiley, charged with attacking a Chinaman and beating him, was given a hearing yesterday before Justice Linn. SAVE AN EXAMINATION FEE.

By going to the Frank Golden Jewelry Store and having your eyes examined free of charge by the only graduate optician in Nevada. Glasses fitted and adjusted in a scientific manner.

Outlook Better for Copper Prospects.

News that Anamagated copper stocks had advanced six points was received here with great pleasure yesterday. There are in the vicinity of Reno at least sixty copper mines and claims under working bond. When the recent depression in the copper market occurred great fears were felt that the bonds would be all allowed to go by default.

The indications are now that the price of copper will either remain stationary or rise. The Mason Valley and Humboldt counties are similarly situated. If the copper market is upheld there will be great activity in mining the red metal the coming season.

Mirrors, any kind at Porteous.

Calls the Turn on the Races.

One of the features of Monday's Pony Bulletin, the racing paper that is published in 'The Journal' office, was the tip department. The Bulletin picked four winners out of the six races at Oakland the following day and nearly all the one, two, three's were in the money. The San Francisco Chronicle and Examiner doped men guessed only two winners. The Pony Bulletin man evidently smokes a costly brand.

THE BURGLAR BREAKS OUT

Easy Escape from Reno's Wretched Calaboose --Recaptured.

Constable Leeper and Officer Brundage made an important arrest yesterday morning about 10 o'clock, but they had their labor for their pains. The miserable little board out-house that the town board thinks good enough to confine prisoners in, didn't hold the bird for long.

The prisoner was Frank Chapman. He is accused of having burglarized Ed Schmidt's store twice in as many months. Each time he slipped across the State line to Floriston. Burglars are as safe there as if they had flown to the north pole. The Herick case evidences this.

Leeper knew his man and he laid in wait for him. Yesterday he recrossed the line with the probable intention of committing another burglary. He was spotted and carried off to the police court. The court was in session and the prisoner was deposited in the calaboose until his honor should have leisure to attend to his case. An hour later the officers arrested Chapman's accomplice. The latter gave his name as Charles Geertz. Both prisoners made a partial confession and addressed each other as "pards."

Several hours later the officers went to the calaboose and found that Chapman's cell was empty. A small boy said that he had seen an Indian passing in a piece of scrap iron.

This could easily be done, for there are holes in the lockup nearly large enough to throw a dog through.

With ease Chapman pried the door open and escaped. The pard passed a hole through the partition and carried his money to Chapman to enable him to escape. Geertz admitted this.

Geertz would also have been free in a little while. He was busily engaged forcing the roof off the travesty of a jail. Geertz was removed to the county jail.

Constable Leeper has not much heart to pursue the escaped prisoner. He and his men are doing good work preserving order in a wide open town of seven thousand inhabitants, but they receive little or no support from the powers that be.

Last evening the officers recaptured the burglar. Constable Leeper had requested the saloon keepers on First street that they notify him should Chapman turn up. About 9 o'clock Ed Fallon telephoned Constable Leeper that the man wanted was in the Del Paso. He was behind the bars of the county jail ten minutes later.

The officers have located two of the pistols stolen by Chapman. They were sold in Verdi.

Doing a Huge Business.

Freight Agent Field reports tremendous and steadily increasing traffic to and from Reno. The business for the first five days of this month equaled that for the entire month of December last year.

Will Visit This State.

Senator Flanagan has received a message from Washington to the effect that President Roosevelt will spend a portion of his time in Nevada when he makes his contemplated tour of the west.

A NEW ARRIVAL.

Fredericksburg extra pale at the J. J. Becker saloon with a fine lunch from 11:30 to 2 for 15 cents.

The Commercial Row Excavation Begins.

At last the Town Board has ordered that Commercial street be swept. A couple of men and a cart were doing yeoman service yesterday. They succeeded in removing the surface coating of the filth, including one coupling link, two dead cats, a few poorly preserved robes of the Stone Age and half a dozen lobster and tomato cans.

As the street is to be swept three times a week, it is expected that in a month the men will get through the superimposed strata. Prospectors will then be on the watch for pay dirt. It is barely possible that before reaching bedrock, or bitumen, an ancient auriferous river bed or two may be encountered.

Mining Development up on Old Peavine.

Messrs. Price and Miller, the Colorado Springs mining men, who recently obtained a working bond on the Clark & Currie group of mines on Peavine, have prepared to start mining in earnest.

They have hauled out men, lumber, tools and a winter grub stake. The mine will be extensively developed, and there will doubtless be a good sized ore dump by spring.

A Young Offender.

Several days ago a shotgun and some other articles were stolen from George Maginnis' stable. The gun was sold to A. F. McPhail. Yesterday the boy who committed the theft was apprehended and locked up. Although the charge is still pending against him the boy was released on payment of his tender years and in sympathy for his family.

First of the Course.

Tomorrow evening the most unique course of entertainment ever given in Reno will open at the M. E. Church, when Mr. Edward B. Payne, the noted scholar and platform orator, will speak on "Bread and Civilization."

A Great Feeding Point.

Forty-seven cars of cattle arrived yesterday from Wyoming and Idaho, and will be fed here. One solid train belongs to John Sparks and twenty cars are owned by Flanagan and Blackburn.

A Serious Suggestion.

There is considerable of a reaction over the quality of the material being used in the construction of the new county jail. The Board of Commissioners could simplify matters by moving the calaboose across the river and thus save the cost of a new jail.

TO PROSPECTORS AND MINERS.

A Practical Electrician.

A. R. Powers, practical electrician, is prepared to do electrical work of all kinds. Inside wiring a specialty. Leave orders at 313 Front street, or Phone Red 65.

The Merry Chase After Hawkins.

"Hunting for Hawkins," Guy F. Stealy's latest comedy, will receive its initial presentation in McKissick's Opera House Friday evening.

This new comedy is decidedly one of the most emphatic hits that has been produced during recent years. Differing from the numerous farces with which amusement seekers have been bored rather than entertained, "Hunting for Hawkins" is said to contain a well-defined and thoroughly interesting plot which maintains the interest of the audience throughout the action.

Newspaper critics who have written of the performance say it is a cleverly constructed comedy and not a clumsily thrown together farce, although the dialogue does not contain one really serious line. Guy F. Stealy, the author, has received much praise for his ability to write comedy that is irresistibly laughable without descending to coarseness, as many farce writers do.

San Francisco Views at Porteous.

Minstrelsy at the Opera House.

Despite the inclement weather the opera house was jammed last night. Haverly's Minstrels were the attraction. More than two hours of choice music was the portion of the audience. A number of changes have taken place in the personnel of the troupe since its last visit here.

In many points the aggregation has been strengthened and in others the changes weakened the company. Taken all in all, the performance gave great satisfaction.

Porteous' for Art Calendars.

Union Gathers Strength.

At the regular weekly meeting of the Storey county labor union last Saturday evening, several new members signed the roll and the forecast that the union would soon have a membership of 400 was not exaggerated, as it will include fully that number before the dawn of the new year.

DEMOCRATIC DIVISION.

EVERYBODY, friends and enemies alike of Croker, agree that he is arrogant and dictatorial in his domination. He has used his power remorselessly and has not brooked any opposition. His enmity with Hill was one of the reasons for the Democratic reverses in New York in recent years. Tammany was overthrown at the last municipal election. Croker evidently realizes his error and is convinced of the necessity of using more diplomacy and less arbitrary dictation, as is manifested in a recent interview with Mr. Danforth, Hill's representative, in which he, among other things, said:

"The Democratic party will have no chance in the city, State or nation for years to come unless the Democrats get together right away. Quarrels and bickerings must be stopped. The time has come for the leaders in this city and throughout the State to join and prepare to fight the common enemy. If they don't the State election next year will go against the Democratic party, and there will be no hope for victory in the presidential fight in 1904. I am for harmony, and for harmony at once. I am willing to make any concessions to obtain it."

These are words of wisdom from whatever source. Divisions resulting from personal animosity or personal desire to control are the most severe affliction of the Democratic party. They have been in the past and are to-day. The Democratic party is often prevented from exerting or displaying its strength by these desires, which have no proper place in political affairs, that have nothing to do with political principles and are not even matters of policy.

The Democratic party is united to-day in purpose and belief. The divisions of the past should no longer exist and there is no reason for their continuance. The conditions have changed. Those who remained true to party organization, while they do not recant in the slightest degree, are less strenuous in insisting an adherence to every word and phrase of the platforms of the last two national campaigns, and those who refused their support are less dictatorial and less pronounced in their opposition. All are agreed on the main points of Democratic faith. All of the talk about reorganization and reorganizers is of little real consequence. Whether the control of the party remains in its present hands or is transferred, the party policy is likely to be the same.

We are facing a situation where it is desirable that there should be a strong, vigilant, united party to oppose the destructive schemes of the party in power, and one able to make a strong fight for control of Congress next year, and of the national government in all its branches in 1904. The example of Croker is worth following. If so arrogant a leader as he can seek to make peace on such terms as he has stated, no one else need feel ashamed to take the first steps anywhere. The defeat of Tammany has had the good effect of bringing its leader to a sense of the folly of attempting to win a battle with divided forces.

POINTED POLITICAL PARAGRAPHS.

(From the Commoner.)

The Congressional Record contains what they say publicly, but the committee room does not talk.

The "negro problem" continues to be settled in the north, where there is no negro problem to speak of.

The reports from New York are to the effect that the "reformers" have quite an appetite for "pie."

Of course Attorney-General Knox will not officially know of the great railroad combine until it is perfected.

By carefully refraining from sending supplies to her troops Great Britain may in time starve the Boers into submission.

The kind of reciprocity most favored by the Republican leaders is most noticeable about the time the trusts make campaign contributions and receive promises in return.

If it can be so arranged that the Republican national committee will have the selection of their United States Senators there will be no trouble in securing statehood for Arizona and New Mexico.

President Roosevelt promised to carry out the policy of his predecessor, but there is danger that the protectionists and manufacturers will scare him away from the president's reciprocity suggestions.

The rumor that an effort will be made to perfect the civil service law during the coming session of congress recalls the fact that the politicians have invariably profited by Republican tinkering with the civil service law.

The Irish envoys, John E. Redman, P. A. McHugh and Thomas O'Donnell, all members of parliament, are receiving a cordial welcome in the United States. They are here to present Ireland's side of the ancient struggle for home rule, and they talk to sympathetic audiences.

THE late federal court decision upon a territorial case was another "bare majority" one. It is rather close figuring to bring into harmonious conviction an entire interested nation.

WE are now turning the tables on California. A carload of apples was shipped from Carson to California last week. Ere long we will be furnishing the Californians with material for their U. S. Senators. The day of reckoning is coming.—Wells Herald.

You are behind the times, sonny. Nevada has been for years furnishing California material, such as it is, for two United States Senators. The only difference is, their certificates of election are dated Carson City instead of Sacramento.

HENRY WATTERSON wants to adopt the federal constitution as the Democratic platform. That sounds very nice, but how would it suit Mr. Watterson to take some portions of the constitution as interpreted by the Supreme Court? Of course a Democratic platform should conform with the constitution, but it should, moreover, apply its principles to pending issues, else there would be no need of party platforms.

NO ONE will dispute Senator Vest's wisdom in declaring that "people who want tariff changes or practical reciprocity need not look to the Republican party for them." The Republican leaders are using for their tiffin the hackneyed cry that it is a case of "let well enough alone"—which means that the trusts are doing "well enough" as it is.

IT IS a safe bet, if it were possible to choose, that President Roosevelt would prefer to referee a Reno football game than to render final decision upon some of the acts of the two houses of Congress.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

The Dyer group of copper claims in Mason Valley have been bonded to J. A. Cruikshank of Cincinnati, O., at \$10,000 for nine months.

Hanson and Reymers hauled about seventy tons of copper matte to Washoe last week and this, the result of the recent run at the Bluestone smelter. The matte runs about 60 per cent copper.—Times.

It is said that the owners of the Arizona mine at Unionville have been offered \$50,000 for the property by a Colorado syndicate. Jack Ross of Sutter Creek, Cal., and Neil Carmichael of Confidence, California, are the owners.

Harris and Lambert have relocated the old Liberty mine, 12 miles north of Tonopah, which is said to contain pillars of ore in the old workings which carry values as high as \$400 per ton. They have bonded the mine to Colorado parties.

Varney, Johnson, Tailleux & Gammon of Virginia City, who bonded the Lizard mine 15 miles east of that place at \$12,000 a few months since, say they have taken out \$5000 already and expect to put a mill on the property in the spring.

C. Diehl who has been examining his mining property at Unionville for several days, returned home yesterday, says the Silver State. He says there are good prospects for a general mining revival in the old district, where operations have been practically suspended for many years.

The outlook at the Trinity and Arabia mines is most encouraging. George D. Burton says that a larger force of men will be put to work at these mines very shortly, and also that he intends to make arrangements to use the water power of the Humboldt river to operate mining and milling machinery.

The new mill for the mines of the King Solomon M. Co. at Charleston is under construction. The mines of the company, which is controlled by Ogden, Utah, and Lafayette, Ind., people, with W. C. Alexander manager, have about 3000 feet of development work done, showing the ore averaging about 20 feet between walls. In the main workings the ore shows an average of \$10 gold and from twenty to forty ounces silver. The mill will be of fifty tons capacity, arranged to be increased to 200 tons. A sawmill is being erected on the ground.

FOOD CHANGED TO POISON.

SAW DEATH NEAR.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma, and all Throat and Lung diseases. 50c and \$1.00 at S. J. Hodgkinson's. Trial bottles free.

Beauty is Health.

"Walnut Lake, Ark., June 8, 1900.

I thank you for the health I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the nausea, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Worn faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flies quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

Financial Talk No. 14.

There Are But Two Ways of Paying a Debt; Increase of Industry and Raise of Income, Increase of Thrift and Laying Out.—Carlyle.

AN HONEST CONFESSION.

"There are some men of genius," said Mr. Nipping, "who accumulate great fortunes by great strokes, but by far the greater number of fortunes, including those of moderate dimensions, and these form the great majority of all, are made by the very simple process of living within one's income and investing the surplus, with more or less wisdom, but always where it will be safe. The older I grow the more amazed I am that more people don't lay up a competence for themselves, as most anybody can do by beginning early in life to live within their income and sticking to their post faithfully. Did I do this myself? No! Am I, however, having learned the wisdom of the course, now making a beginning? I am obliged to say 'No.' I am still spending all I get and laying by nothing. There are some lessons that we all easily acquire, but never turn to our own advantage, one of these is the benefits that arise from the exercise of self-denial nourishes, strengthens and broadens the will and enables a man to earn more and more. There is simply nothing like self-denial, it is the key to every one of life's treasures, and everybody has one of those golden keys in his possession, eager to help him and waiting only for him to bring it into use."

We offer you an investment absolutely secure, and paying the highest dividends, consistent with careful management. Our plan is simple and practical. No membership fee charged.

You can suspend agreed payments indefinitely without forfeiture, fines, dues, or penalties of any kind whatsoever.

Your savings invested with us will be a working asset, good to keep, and well to have for an emergency or opportunity. Our securities are first mortgages on real estate of approved value, and constantly improving, as our borrowers make regular payments, thus constantly reducing their loans and increasing the relative security of your savings. Our expenses are low and our plan strictly co-operative. We invite you to call.

We loan money at moderate rates of interest on a definite contract to be returned in monthly installments. We receive deposits in either small or large amounts to be monthly in regular or irregular payments or deposited in one lump at one time on which deposits we guarantee and pay fixed rates of interest according to the plan accepted from 5 to 10 per cent per annum. Deposits received from \$3 up.

NOW IS THE TIME

To get in on the ground floor. A limited number of shares in the capital stock of the Elko Crude Oil Company will be sold in Reno for one-fourth of par value.

The first well is being sunk and the chances are almost conclusive of getting oil. This is the first oil well in Nevada. The general manager of the Company, A. Love, will call upon you in a few days.

The new oil field is located in Elko county, where are found immense beds of shale carrying more or less paraffine oil.

The fossil lime, which is there in large bodies, contains the same fossils of marine life and has the same smell of gas as has the lime that is found in the Pennsylvania oil fields.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.
